## Application and Instructions

Overview of Centre Proposal Program	Page 2
Proposal Preparation and Eligibility Criteria	Page 5
Rating Criteria	Page 9
Proposal Guidance	Page 10
Proposal template	Page 12-18
Annexure-1:	page 19

## Dates to Remember

Announcement of program	June 23, 2023
Proposals Due by	July 31, 2023
Announcement of Awards	End of August 2023
Funding Available	End of September 2023
Progress Report Due	First Week of February 2024
Mid-term Review of the project	August 31, 2024
Final Report Due	August 31, 2025

## **About Indian Knowledge Systems (IKS) Division**

Home to the oldest continuously living civilization of the world, the Indian subcontinent has been a knowledge and manufacturing powerhouse of the world for most of the known history. A Dharmic culture that emphasized the development of all dimensions of humanity with an emphasis on living in harmony with oneself, one's environment, and the universe at large. It is becoming very apparent from the recent developments around the world that the current models of development are unsustainable and are in serious conflict with nature. The rising inequalities in the modern world point to a dire need for new paradigms of development.

*There is an Indian way that is both sustainable and strives for the welfare of all.* The grand vision for the IKS Division of Ministry of Education is to initiate a process of training generations of scholars who will show the 'Indian way' to the world. If we want to become the Knowledge Leader in this century and be the 'Viśvaguru', it is imperative that we regain a comprehensive knowledge of our heritage and demonstrate the 'Indian way' of doing things to the entire world. Therefore, the IKS Division of Ministry of Education has been established with a vision to ***promote interdisciplinary and transdisciplinary research on all aspects of Indian Knowledge Systems (IKS), update and disseminate IKS knowledge for further innovations and societal applications.***

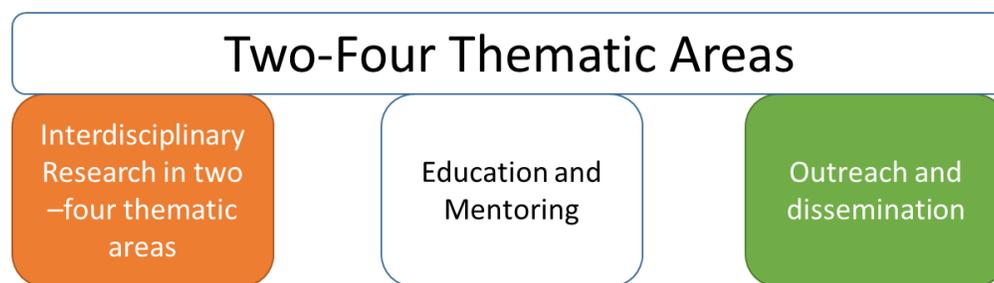

### **Functions of IKS Division:**

- 1) Facilitate and coordinate IKS based/related inter and transdisciplinary work done by various institutions in India and abroad including universities, institutions of national importance, R&D laboratories and different ministries and inspire private sector organizations to engage with it.
- 2) Establish, guide and monitor subject-wise interdisciplinary research groups comprising of researchers from institutes, centers and individuals.
- 3) Create and promote popularization schemes.
- 4) Facilitate funding of various projects and develop mechanisms to undertake research.
- 5) Make Policy recommendations wherever required for the promotion of IKS.

## Overview of the IKS Center (Research) Proposals Program

*The IKS Centers (Research; Henceforth referred to simply as IKS Centers in the rest of this document) program is designed to encourage and fund the establishment of IKS centers across the country with a view to catalyze original research, education, and dissemination of IKS knowledge.* The goal of the IKS centers is to act as a catalyst for initiating research, education, and outreach activities in various parts of the country. The IKS activities are currently dispersed around many places in the country. There is a strong need to establish centers in the country in traditional schools and STEM educational institutes to focus these efforts. This initiative will address this critical need.

Each IKS center consists of three pillars, namely: 1. Research pillar, 2) Education and mentoring pillar and 3) outreach and dissemination pillar (Figure 1). It is mandatory for the IKS centers to have deliverables and objectives centered around all the three pillars. Each center must focus on 2-4 thematic areas described below.

**Figure 1. Conceptual structure of a IKS Center**

**Thematic Areas:** The proposals for IKS centers are expected to select two-four of the following areas of interest to the IKS Division. These areas of interest are nurtured in all languages of India such as Tamil, Sanskrit, Pali, Prakrit, Arabic, Persian, Kannada, Malayalam, Telugu, Odia, Bengali etc. The knowledge systems have been preserved in many textual, oral traditions and kula paramparas that are practiced and include tribal traditions. The selected themes cover all broad areas and are relevant for all people, at all times and in all places.

1. Holistic medicine and wellness
2. Indian psychology and yoga
3. IKS based approaches for the economics, governance, and political systems
4. IKS based approaches for management and leadership
5. IKS based approaches for law and jurisprudence
6. IKS based approaches to artistic traditions
7. IKS based approaches to philosophical traditions
8. IKS approaches for development and management of water resources
9. IKS approaches to conserve biodiversity and ecological protection
10. Indian sports and martial arts
11. Architectural engineering, town planning, civil engineering, Vaastu and Shilpa Shastra
12. Sustainable agriculture and food preservation methods
13. Novel materials, metallurgy and material sciences
14. Observational astronomy and calendar systems

15. Ship building, navigation and maritime traditions
16. Mathematics, mensuration and astronomy of India
17. Chemistry in India
18. Zoology and Botany in India
19. IKS Approaches for Vruksha and Pashu Chikitsa (Plant and Animal disease protection)
20. Perfumery and cosmetics in India

**Available Funding:** The funds available to support the IKS Centers are discretionary funds provided by the Ministry of Education, Govt. of India to support the activities of the IKS Division. The level of funding available for the program each year is determined by the MoE, Govt. of India. The IKS cell will establish IKS centers across the country with a funding level of up to **Rs. 20-40 Lakhs** over two years. The maximum funding limit of Rs. 40 lakhs for a center is inclusive of the Matching grant funds.

**Institutional commitment and matching grants (NEW Requirement):** The IKS centers are designed for strengthening the institutional capacity in IKS. The institutional commitment for the IKS Centers is critical for their success. Therefore, the program requires institutional commitment clearly demonstrated in terms of matching grants. **A minimum of 25% matching grants are required.** Matching grants in actual funding by the institute is preferred. Matching grant requirement can also be met through the in-kind support such as funding support for the office staff, infrastructural facilities for the establishment of IKS center, computers and other IT support, experimental facilities, and any other in-kind support.

**Goal for Funding IKS Centers:** Our goal is to make catalytic grants that encourage original, serious, and deep scholarly research in the Indian Knowledge Systems to rejuvenate IKS research in India. ***Each IKS center is expected to focus on a minimum of two and maximum of four thematic areas. Proposals to establish generalized centers without identifying focus areas is highly discouraged and will be rejected at first step of the review process.*** Funding research that may eventually lead to practical products or practices or leads to solutions to current societal problems is the top priority. ***Involving students, younger faculty with an aim to train and nurture next generation of scholars is highly encouraged.***

**Nature of Support:** Each IKS centre will be supported with funding for the manpower (Research fellows, project associates and interns), supplies, facilities and miscellaneous expenses. This funding is expected to jump-start the IKS activities in the newly established cells and prepare them to apply for competitive research funding, training, and mentoring interns, and conduct Faculty Development Programs.

**IKS Center Evaluation:** The success of the IKS centers will be monitored through quarterly follow up to the Principal Investigators (PIs), and yearly reports on the activities of the centers. The project outputs are likely to be updated on the IKS Division website to help disseminate the results among the IKS community. The metrics to evaluate the performance of the IKS centers will include the number of project proposals submitted, research papers published, publications in peer-reviewed literature, popular articles, student training and mentoring, Faculty Development

workshops, monographs, and textbooks published in addition to other appropriate metrics which will be communicated to the PIs in advance. ***IKS Division reserves the right to discontinue funding if there is no satisfactory progress (as indicated by an independent expert review) in any IKS Center after the first year.***

## **Proposal Eligibility Criteria/Preparation and Submission Instructions**

The IKS Division of MoE is inviting proposals from institutions working in the Indian Knowledge Systems. Faculty members in any Govt. recognized educational institutions (private/public) and any Govt. departments are eligible to apply. To be eligible for this grant, NGOs/Trusts/foundations must be ***solely working*** in the research and education related to Indian Knowledge Systems. ***Independent researchers without an institutional affiliation are not eligible to apply. Researchers who have been funded by IKS Division through the Research proposal program/IKS center program in earlier rounds are not eligible to apply as Principal Investigators or Co-Principal Investigators. They can however be involved as a collaborator.*** Funding best research is our priority. When proposals are similarly scored, we give preference to assistant professors, associate professors, and professors (in this order). ***An institute can submit only one IKC Center (Research) proposal. If multiple IKS Center (Research) proposals are received from an institute/University, all proposals will be sent back to the institute for selecting one proposal and may be rejected without review. The proposal can be submitted in any Indian Language included in Eighth Schedule or English.***

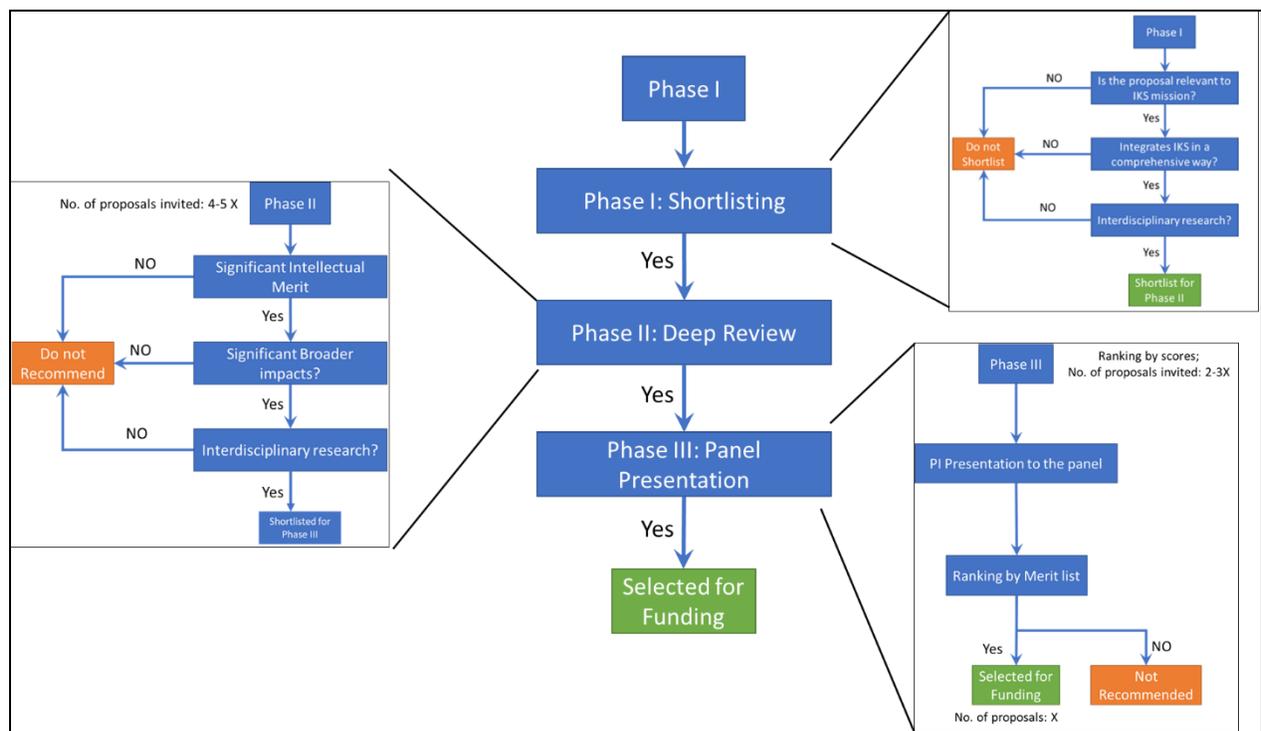

1. The IKS center Proposal(s) should focus on 2-4 thematic areas that are important to IKS's research mission.
2. **It is mandatory requirement that the team must have at least one person (PI or Co-PI or Collaborator) who can read the primary text without the aid or any translations.**
3. Joint, interdisciplinary projects are preferred, and encouraged.
4. Typical projects will be funded in the range of Rs.10-20 Lakhs (total amount) for two years. In some cases, where the experimental projects require substantial resources higher level of funding will be considered. But in no case will the maximum award exceed Rs. 40 Lakhs over a period of two years.
5. All proposals must have a minimum of 25% matching grants (Both in actual funds and/or in-kind support)
6. The project must be **completed before the project deadline indicated on the first page** unless an extension is granted.
7. **Proposal submission deadline is 11:59 p.m. on the date indicated on the first page and must be submitted through online portal ([iksindia.org](http://iksindia.org)) only. Any other form of submission will not be considered. Please do not send proposals by email/hardcopy. ***Late proposals will not be accepted for any reason.*****
8. IKS Division reserves the right to nominate proposals to the review panel that further the IKS Division's mission as determined by internal review. The nominated proposals will be considered on an equal basis and will undergo the same peer review process as other proposals.

9. Progress reports are due on the dates indicated on the first page. The research carried out in the project will be reviewed at the end of one year by an external expert committee. Future grants will be made only upon favorable recommendations.
10. Besides a detailed report, IKS Division requests that no more than 300-word layperson language summary (Suitable for publicly posting on the webpage) and several photos of your work be submitted with each report. These may be used in IKS's annual report or on our website.
11. Failure to following proposal guidelines will result in your proposal not being reviewed or funded
  - Please use the proposal template provided. If you use the version at the end of this document, you will need to adjust pagination and margins.
  - Use the signature page provided and make it a separate page in your document.
  - Complete the cover page provided. Make it a separate page in your document.
  - The proposal body should not be more than ten (10) pages long. Please write your proposal in clear simple language. Primary references (typically in Indian Languages) section cannot be left blank. Do not list references unless you cite them.
  - Use 1-inch margins on all sides, single line spacing, at least 11-point font.
  - If you use page numbers, place them at bottom center.
  - A complete proposal includes the following documents in the same order (**as a single pdf only**):
    - Document 1: cover page
    - Document 2: Proposal narrative
    - Document 3: Budget page
    - Document 4: PI and Co-PI resumes
    - Document 5: PI signature and institutional approval pages
  - The size of the single document files must be <15MB.
  - Once your proposal is finalized, save it as a PDF file using this naming format BGSKendram\_Research\_YOURLASTNAME.
12. Submission Process
  - Please visit the IKS Division website and fill the details on the link given on the first page.
  - Upload your PDF proposal files (<15 MB) and then press the submit button.
  - If your submission has been successful, you will receive the message **“This is a formal acceptance of your file. Your response has been recorded successfully to IKS Division. No other emails will be sent to you regarding confirmation of your proposal”**.
13. Budget Distribution:
  - The available funding for the IKS Centers over two years would be sanctioned in three installments.
  - Proposals proposing more than the budget limit will be returned without review and automatically excluded from the review process.
  - Funding will be provided to support the following:

- **Salary** for project personnel/ project associates/ research fellowships/ internships. PI or Co-PI salaries/honorariums are NOT supported.
- **Supplies and Equipment:** Funding for conducting experiments, field surveys etc. can be included here. Any service charges for the analysis of samples can be included in this budget head. Acquisition of resources such as books are acceptable under this budget head. Purchase of computers/laptops/printers is expected to be accomplished through the matching grants and institutional support. In extraordinary cases, they can be purchased up to a maximum of Rs.1.5 Lakhs during the project. The computers/laptops/printers/other equipment purchased in this project will become the property of the PI's organization at the end of the IKS project. Please note that construction of new facilities (Brick and mortar) is not allowed in this project. Please provide details of the estimated expenses for various items under the supplies and equipment head.
- **Education/Mentoring/Outreach:** Any funding for effectively implementing the education, mentoring and outreach plan is permitted. The outreach activities must be exclusively IKS centric and must focus on the core areas of the respective IKS centers.
- **Travel and conferences:** Any travel and related expenses to attend domestic conferences or project related travel/ accommodation within India are allowed in this grant. International travel is explicitly not allowed. The PI's must plan on attending the Annual IKS Symposium/conference.
- **Contingencies:** Maximum contingency allowed is 5% of the total budget.
- **Overhead:** Maximum overhead allowed is 5% of the total budget.
- **Matching grants:** A minimum of 25% matching grant through monetary or in-kind support is required to demonstrate institutional commitment to the IKS Center. Please indicate monetary and in-kind support for the matching grant requirement. Matching grant requirement can also be met through the in-kind support such as funding support for the office staff, infrastructural facilities for the establishment of IKS center such as dedicated office space for the Center, computers and other IT support, experimental facilities, and any other in-kind support.
- **Total budget = Budget request from the IKS Division+Matching Grant.** This must not exceed Rs. 40 Lakhs for the two years.

## Review Process

1. We will follow a blind three phase peer review process (Fig. 2).
2. The rating criteria that will be used by the reviewers are given in the next section.
3. All proposals will be reviewed by multiple independent experts.
4. There will be a presentation before an expert committee for final selection.
5. The PIs in Phase-III will receive the average scores for their proposal, and the reviewer comments. The minimum cutoff score for the selected proposals will also be shared in the interest of process integrity and transparency.
6. The IKS Division will be bound by the decisions of the review panel regarding the selection of the proposals.

**Figure 1. Overview of the three-phase review process**

## Proposal Rating Criteria

The following criteria will be used by the reviewers of your proposal to evaluate and rank your proposal against others. Please think about these questions carefully and answer them clearly in your proposal using the proposal structure specified.

- Is this IKS Center's mission focusing on the themes **relevant** to IKS Division's mission and focus areas? (20 points)
- Are the IKS Center plans and goals clearly stated and **understandable**? (10 points)
- Does the proposed center have a **clear research plan** for conducting research that addresses **significant** problem or potential? (10 points)
- Will the results of this study be **useful**? Might they **make a difference**? (15 points)
- Does the proposed center have a **clear education plan**? (10 points)
- Does the proposed center have a **clear mentoring plan** for students and younger faculty? (10 points)
- Will the results be **communicated** to appropriate audiences? (5 points)
- Does the proposed **budget seem appropriate** for the work to be executed in the project? (5 points)
- Does the PI and the team have necessary **competence, prior experience and expertise** to undertake the proposed research in the proposed topic? (15 points)

**Strength of the proposal** (up to 100 words): Please list the specific strengths of the proposal.

**Weakness of the proposal** (up to 100 words): Please list the specific weaknesses of the proposal if any.

NOTwithstanding the weaknesses do you think that there are some specific reasons due to which the project may still be considered for support?

**Summary Statement** (up to 100 words): Please indicate whether this proposal should be supported or not.

## Further guidance on proposal preparation

### Considerations in preparing your proposal:

1. The charge of the IKS is to support **research in Indian Knowledge Systems** that will make meaningful contributions to the furtherance of IKS. Please refer to table 1 to see what qualifies as an IKS project. Please refer to the IKS Website for a list of projects that have been supported.
2. A good proposal will emphasize how the proposed research is intended to contribute towards the IKS's mission either in the near future (applied) or by leading to developments further in the future (basic). Simply satisfying curiosity or compiling data for a refereed paper will not be in the interest of the IKS Division and will not impress the reviewers.
3. ***The projects must strictly be related to IKS themes.*** Proposals which are not within the scope of this solicitation will be rejected in Phase-I review (internal review process) without any further communication in this regard. Proposals must have a reasonable set of activities that can be completed in two years. The proposals must have clear quantifiable deliverables. A sustainability plan after the end of the IKS Division support must also be included. Writing a comprehensive report is required for all funded projects. For projects that involve performing arts, a comprehensive multimedia documentation is expected.

**Table 1. Examples of what qualify/do not qualify as an IKS project**

<b>Is an IKS project</b>	<b>Is NOT an IKS project</b>
Study of mortar composition used in older bridges/forts/temples.	Study of bridges and ships in a locality.
Documenting and evaluating the water treatment methods practiced by communities.	Monitoring plastic pollution in a river.
Studying the relevance and applicability of Chanakya's arthashastra is relevant for solving current societal problems.	Studying the economic theories of Adam Smith or MMT.
Study of port construction in Dholavira and Lothal and estimating the capacity of those ports.	Studying ships in a port.
A study of the influence of Sanskrit education on the cognitive abilities of the students.	Visiting schools to see how Sanskrit education is imparted.

Identifying the contextual and etymological meanings of the words (ex. Dharma, nyaya, papa, punya) in a purana for the current societal context.	Enumerating the occurrences of words (ex. Dharma, nyaya, papa, punya) in a purana
--	---

4. All IKS center proposals must choose a minimum of two and maximum four thematic areas.
5. Clear communication is the key: Proposals that clearly specify the contribution of the research will be scored higher.
6. Because conveying the results of research to potential users is important, requesting funds for defraying costs of such activities is permitted.
7. We do not fund acquisition or construction of facilities (bricks and mortar). Requests for equipment needed to carry out proposed research are permitted. The proposal must describe your need and specify how the equipment will be used in this specific research. Funding will not be provided to better equip your laboratory or facilitate other work.
8. It may happen that your reviewers could be scholars who may have only a minimal familiarity with the details of your specialized field. Please write your justification, objectives, procedures, and impacts such that a person who may only have a limited background in your area can understand your arguments. A proposal that reviewers cannot readily understand is likely to be poorly rated and not funded.
9. While it may be easy for you to cut-and-paste material from another proposal when preparing your IKS proposal, your proposal will be rejected if it is obvious that you have done so. Even if you borrow phrases or ideas (NOT cut and paste) ensure that you proofread your proposal to remove any telltale dates, timelines or references that could serve as a cut and paste “giveaway.”
10. Future funding is difficult to predict but tell us how the results of your research might help lead to future grant funding from other sources.
11. Please keep in mind that funds to finance the centers is limited. We will make a call on the number of proposals to be funded based on the availability of funds and quality of proposals.
12. Please ensure that you cite all your references in your text. Be sure to remove “ghost” references – a citation listed in the text but not the reference section. All proposals must include at least one primary text in the references. Please do not use web links to journal articles.
13. If you intend to use IKS project funds in concert with other funding to complete a project, be sure to thoroughly describe the other funding source(s) and amount(s) on your budget page. Reviewers are interested in knowing about funds leveraging possibilities.

THE INDIAN KNOWLEDGE SYSTEMS DIVISION OF MoE

**भारतीयज्ञानसंपोषणकेन्द्रम् (गवेषणम्)**

**IKS Center (Research) PROPOSAL COVER PAGE** (not included in page limit)

**Proposal Title:**

**Thematic Areas CODE** (Please see Annexure-1):

**Lead Researcher (Principal Investigator):**

Name:

Email address:

Phone number:

Academic rank:

Appointment type:

Physical work location:

Academic home department:

**Co-PI(s) (if any):**

**Cooperator(s)/ Collaborator(s) (if any):**

**Project Budget Amount:**

I certify that I will lead the project and complete all the tasks outlined in the proposal. I certify that a complete project report will be submitted at the end of the project and the funding support from IKS Division of MoE will be acknowledged in any publication resulting from this work.

**Principal Investigator**

\_\_\_\_\_ Date

**Principal Investigator Printed Name:**

***IKS CENTER PROPOSAL BODY*** (Ten--page limit; Proposals that exceed the word limits for individual sections will be returned without review)

**Overview of the proposal (250 words):** What is the preproposal about? Describe the key idea behind the IKS Center here. What are the focus areas for this IKS Center?

**Contribution to the IKS Mission (250 words):** How does this project contribute to the IKS Division's mission?

**Justification (500 words):** Please provide a justification for the project and its importance.

**Objectives and timelines (250 words):** Please provide a clear list of specific objectives for this IKS Center. Two-Four objectives are reasonable for this solicitation. Clear and specific objectives will be given higher weightage.

**Project Intellectual merit (250 words):** What is the intellectual merit of this project? Please clearly specify the scientific impact of the project. What are the scientific questions that will be addressed under the proposed research?

**Project broader impacts (250 words):** What are the broader (Societal, economic and environmental impacts? How will this center contribute to popularization of IKS?

**Outputs and outcomes of the proposal (250 words):** What are the outputs and outcomes of the project? Please prepare a list of specific outcomes and outputs. DO NOT use paragraphs to describe the outputs/ outcomes.

**Procedures (1000 words):** Please provide a summary of the procedures that will be used in this project. A brief summary of the procedures is all that is required with adequate references to literature.

**Education plan (250 words):** How do you plan to educate students about IKS area? What are the specific plans for educating students in the proposed areas of focus for this IKS center? Please be specific about the proposed activities.

**Mentoring plan (500 words):** Mentoring next generation of scholars is a high priority for IKS Division. What are your mentoring plans for the project associates, students and interns who will be involved with this center? Please be specific about the proposed activities.

**Communication Dissemination plan (250 words):** How do you plan to disseminate the results from your center to school/ high school/ undergraduate students? How do you plan to reach general public? How will you promote the IKS among the general public? Please be specific about the proposed activities.

**Project team expertise (250 words):** Please tell us about the prior experience of the PI and the Co-PIs in the proposed topic. What are the facilities available to the team to perform the research work outlined in the proposal? Expertise existing with each of the investigators in terms of preliminary results, to execute every component of the proposal should be highlighted.

**Specific roles of Co-PI(s) and Cooperator(s)/ Collaborator(s), if listed on cover page (250 words):** What are the specific roles of the team members? The team must include substantial contribution from all members. If the proposal contains more than one investigator, it is important to clearly mention the role of each Investigator in implementing the objectives of the proposal.

**Timelines (100 words):** Indicate timelines for project tasks and schedule of activities giving milestones through BAR diagram.

**References cited (not included in the page limit):**

- **Primary References:** Cannot be left blank. Must include at least one primary text. Primary references are the original texts pertaining to the research proposed. These are typically in Sanskrit or other Bharatiya Bhashas. The team must have at least one person who can read the primary text without the aid or any translations.
- **Translated primary texts and Secondary References:** These pertain to the translations of the primary texts into various languages including English. Secondary references refer to the texts/ articles such as commentaries for the primary texts.
- **Other references:** All other pertinent references are included here.

***IKS Center BUDGET*** (not included in the page limit – please round all figures to nearest hundred rupees)

NOTE: Please do not exceed the Rs. 40 Lakhs per project limit. Proposals proposing more than the budget limit will be returned without review and automatically excluded from the review process.

**Salary** for project personnel/ project associates/ research fellowships/ internships. PI or Co-PI salaries/honorariums are NOT supported.

**Supplies and Equipment:** Funding for conducting experiments, field surveys etc. can be included here. Any service charges for the analysis of samples can be included in this budget head. Acquisition of resources such as books are acceptable under this budget head. Purchase of computers/laptops/printers is expected to be accomplished through the matching grants and institutional support. In extraordinary cases, they can be purchased up to a maximum of Rs.1.5 Lakhs during the project. The computers/laptops/printers/other equipment purchased in this project will become the property of the PI's organization at the end of the IKS project. Please note that construction of new facilities (Brick and mortar) is not allowed in this project. Please provide details of the estimated expenses for various items under the supplies and equipment head.

**Education/Mentoring/Outreach:** Any funding for effectively implementing the education, mentoring and outreach plan is permitted. The outreach activities must be exclusively IKS centric and must focus on the core areas of the respective IKS centers.

**Travel and conferences:** Any travel and related expenses to attend domestic conferences or project related travel/ accommodation within India are allowed in this grant. International travel is explicitly not allowed. The PI's must plan on attending the Annual IKS Symposium/conference.

**Contingencies:** Maximum contingency allowed is 5% of the total budget.

**Overhead:** Maximum overhead allowed is 5% of the total budget.

**Matching grants:** A minimum of 25% matching grant through monetary or in-kind support is required to demonstrate institutional commitment to the IKS Center. Please indicate monetary and in-kind support for the matching grant requirement. Matching grant requirement can also be met through the in-kind support such as funding support for the office staff, infrastructural facilities for the establishment of IKS center such as dedicated office space for the Center, computers and other IT support, experimental facilities, and any other in-kind support.

**Total budget = Budget request from the IKS Division+Matching Grant.** This must not exceed Rs. 40 Lakhs for the two years.

**Resume Format** *(Do not exceed two pages for each investigator. The resumes are not included in the page limit)*

1. Name:
2. Correspondence Address:
3. Email:
4. Contact Numbers:
5. Institution:
6. Academic Qualification:
7. Work Experience (in chronological order)
8. Professional Recognition/ Award/ Prize/ Certificate, Fellowship (if any):
9. Peer Reviewed Publications:
10. Details of Patents (If any):
11. Books/Reports/Chapters/General Articles etc.:
12. Ongoing/completed Projects during the last 5 years:
13. Your competence to undertake this project (Maximum 500 words):
14. Any other information (Maximum 500 words):

## ***Certificate from the Investigator***

*(not included in the page limit)*

### **Project Title:**

It is certified that

1. The same project proposal has not been submitted elsewhere for financial support.

2. I undertake that spare time on equipment procured in the project will be made available to other users.

3 I agree to submit ethical clearance certificate from the concerned ethical committee, if the project involves field trails/ experiments/ exchange of specimens, human & animal materials etc.

4. The research work proposed in the scheme/ project does not in any way duplicate the work already done or being carried out elsewhere on the subject.

5. I agree to abide by the terms and conditions of IKS Division of MoE grant.

Signature of the PI

Name of the PI

Affiliation of the PI

Date:

Place:

## ***Endorsement from the Head of the Institution***

*(not included in the page limit)*

This is to certify that:

1. Certified that the Institute welcomes participation of \_\_\_\_\_ as the Principal Investigator and \_\_\_\_\_ as the Co-Investigator for the project titled \_\_\_\_\_, and that in the unforeseen event of discontinuance by the Principal Investigator, the Principal Co-Investigator will assume the responsibility of the fruitful completion of the project with due information to IKS Division of MoE.
2. The date of project starts from the date on which the Institute receives the grant from Indian Knowledge Systems Division of MoE, New Delhi.
3. The investigator will be governed by the rules and regulations of Institute and will be under administrative control of the Institute for the duration of the project.
4. The grant-in-aid by the IKS Division of MoE, New Delhi will be used to meet the expenditure on the project and for the period for which the project has been sanctioned as mentioned in the sanction order.
5. No administrative or other liability will be attached to the IKS Division of MoE, New Delhi at the end of the project.
6. The Institute will provide basic infrastructure and other required facilities to the investigator for undertaking the research project.
7. The Institute will take into its books all assets created in the above project and its disposal would be at the discretion of the IKS Division of MoE, New Delhi.
8. The Institute assumes to undertake the financial and other management responsibilities of the project.

Signature of the Head of the Institution with seal
